

Slí na Sláinte

Slí na Sláinte is a simple and innovative scheme developed by the Irish Heart Foundation to encourage people of all ages to walk for leisure and good health. Routes are marked at kilometre intervals by signs which are not numbered, so you can start or finish your walk anywhere along the route.

Walking is the simplest, safest and one of the most effective forms of physical activity. Every Irish adult should accumulate at least 30 minutes of physical activity on most, preferably all, days of the week.

If you have not been taking regular exercise you should start slowly and gradually build up to 30 minutes per day.
